## SUMMARY

Experienced Java Developer skilled in crafting efficient, high-quality software solutions. Proficient in Java technologies and dedicated to best practices, I consistently deliver code that meets project objectives. Passionate about innovation, I am excited to bring my expertise to your team, driving success and creating cutting-edge software solutions.

## SKILLS

- |            |              |                |           |              |
|------------|--------------|----------------|-----------|--------------|
| • Java     | • Springboot | • Microserices | • GraphQL | • Docker     |
| • React js | • Hibernate  | • REST API     | • OOP     | • Junit      |
| • HTML     | • CSS        | • Swagger      | • Python  | • Kubernetes |
| • mongoDB  | • CI CD      | • Github       | • Linux   | • AWS        |

## WORK EXPERIENCE

**Yaseer Innovative Software Private Limited** – Remote

09/2023 – Present

Java Developer – Full Time

- Engineered and supported scalable backend services using **Java SpringBoot**, ensuring high performance and reliability in applications.
- Implemented 60+ unit and integration tests, enhancing code quality and reducing bugs in production.
- Authored and managed 70+ technical documents, including design specifications, unit test plans, and comprehensive code documentation.
- Leveraged basic AWS services for deploying and managing Spring Boot applications, contributing to enhanced cloud infrastructure.
- Collaborated with teams to ensure seamless deployment and integration of Java Spring Boot applications within cloud environments..

**IBCSCORP** – Remote

08/2022 – 09/2023

Java Software Engineer – Full Time

- Enhanced performance efficiency by 27% through rigorous analysis and optimization of system standards, identifying and addressing over 20 problem areas.
- Managed 100+ deliverables across short-term sprints and long-term deployments, ensuring timely completion and alignment with project goals.
- Contributed to backend development using **Java SpringBoot Microservices** architecture and implemented flexible, efficient API endpoints with **GraphQL**.
- Gained practical experience in setting up basic cloud infrastructure with AWS and demonstrated strong analytical and problem-solving skills to drive project success.

**Yaseer Innovative Software Private Limited** – Ranchi

05/2021 – 08/2022

Junior Java Developer – Full Time

- Developed and maintained backend services using **Java SpringBoot**, contributing to robust and scalable applications.
- Designed and coded 60+ unit/integration tests and created 70+ detailed design documents, unit test plans, and well-documented code.
- Assisted in the development and integration of **GraphQL** APIs, enhancing the efficiency of data retrieval and manipulation processes.

## EDUCATION

RTC Institute Of Technology – Ranchi Jharkhand

08/2018–08/2022

BTECH OF TECHNOLOGY COMPUTER SCIENCE
